

Matagorda County Emergency Operation Center Press Release

June 15, 2020 / 1100 hours / (11 am)

For Immediate Release:

Matagorda County EOC has been informed, we have five (5) additional new cases of COVID-19 today with 13 pending test results.

We have a female between the ages of 30 and 40 years old and is recovering at home.

We have a male between the ages of 20 and 30 years old and is recovering at home.

We have a female between the ages of 15 and 25 years old and is recovering at home.

We have a male between the ages of 60 and 70 years old and is recovering at home.

We have a male between the ages of 0 and 5 years old and is recovering at home.

It was expected after the reopening and with increased testing, we would see more positive cases. Until a proven and widely-available vaccine is on the market, we will likely continue to see more COVID-19 cases.

That is why we are focusing on hospitalizations — it helps us have a laser focus on our two primary concerns, which is overwhelming our health system and protecting our vulnerable populations.

The Palacios Community Medical Center reports 30 negative and two (2) pending Covid-19 cases.

Matagorda County currently has 85 positive cases, of which 52 are recovered. Matagorda County's number of active cases is now 28.

The 28 positive cases are located in the communities of Bay City, Palacios, Van Vleck, Sargent, Markham and Matagorda.

The daily numbers are being posted on the Matagorda Regional Medical Center dashboard.
