

- ◆ During severe weather, remember that high profile vehicles such as trailers, boats, mobile homes, and 18 wheelers are not allowed on roads in Matagorda County if a hurricane warning has been issued for any portion of Matagorda County.
- ◆ Check the Texas Department of Transportation website for information about road conditions - [www.txdot.gov](http://www.txdot.gov).
- ◆ Do not worry while you are away. Roadblocks will control access to the areas that have been evacuated, as weather permits.
- ◆ Report to the designated reception center, if directed to do so by county officials.

## Plans Made For School Children

### Early Release

At the "Alert" level (see description on Page 4), as a precaution, and if appropriate, children will be released to their parents from schools located within a 10-mile radius of the nuclear power plant (Matagorda Elementary, Tidehaven High School, and Tidehaven Junior High School). Parents should pick up their children at their regular schools, if recommended by county officials. Schools will attempt to notify parents/guardians of the early release, if the decision is made to do so. Parents may also receive information through the emergency alert system (EAS) on FM 102.5 or FM 92.5, or NOAA Radio.

### School Evacuation

As a precaution, at the "Site Area Emergency" level, schools will be evacuated, if appropriate. If evacuated, the students will be taken to one of the following host schools:

- Matagorda Elementary students will be taken to Linnie Roberts Elementary School in Bay City, 1212 Whitson.
- Tidehaven Junior High and High School students will be taken to their respective elementary schools in Blessing, 139 FM 616; or Markham, 200 East Sixth Street.

If a school evacuation occurs, parents will be notified through official radio broadcasts. Children will remain under adult supervision at the host school until picked up by a parent.
