**DEFINITIONS**

**CCF** 1 CCF = 100 cubic feet of gas. This is how we measure your monthly usage.

**Customer charge and base amount.** Covers fixed costs for reading meters, issuing bills, maintaining facilities and gas lines, postage, etc. These costs occur even if you do not use gas during a billing period.

**Gas Cost Adjustment (GCA)** is the cost CenterPoint Energy pays for the gas it delivers to its customers.

**Storage inventory charge** allows the Company the opportunity to recover the regulated carrying cost of its investment in storage.

**Reimbursement of local franchise fee** is a fee paid to the city for the company's use of right-of-way in streets and alleys.

**Reimbursement of state gross receipts tax** is a tax imposed by the State of Texas on each utility company located in an incorporated city having a population of more than 1,000.

For a more detailed description of each of the terms used on your bill, please visit [CenterPointEnergy.com/definitions](http://CenterPointEnergy.com/definitions) or call Customer Support at 800-427-7142.

# Manage billing peaks

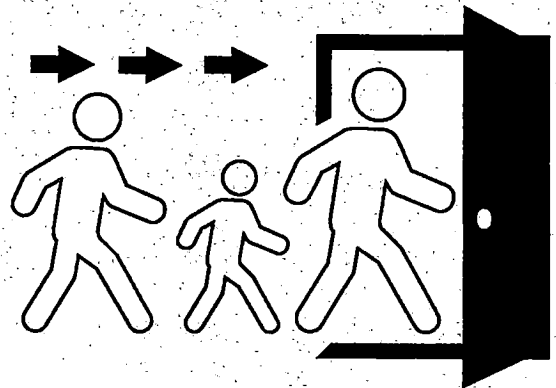

## Get *Average Monthly Billing.*

Cold weather typically means more natural gas used for heating. Combine that with forecasted increases in the cost of natural gas and you will likely see higher heating bills this year compared to last year.

With *Average Monthly Billing (AMB)*, you can smooth out those monthly billing peaks for more predictable bills that are easier on your budget.

To learn more, visit  
**CenterPointEnergy.com/AMB.**

220907\_01\_CNP

## If you smell gas, leave fast!

CenterPoint Energy adds a distinctive rotten egg odor so you can detect a natural gas leak. If you smell the odor in your home, follow these simple steps to stay safe:

- Leave immediately on foot.
- Do not use your telephone or appliances, light a match or turn light switches on or off. Sparks could ignite natural gas.
- Call 911 and CenterPoint Energy from a safe distance. The odor will be investigated at no charge.

For more information about natural gas safety, visit **CenterPointEnergy.com/GasSafety.**

220907\_02

## *My Account* lets you manage your account online your way!

- ✓ View and print your bill in the same layout as your paper bill
- ✓ Turn off paper and turn on payment reminders
- ✓ Schedule a payment or set up automatic payments
- ✓ Get help analyzing your bill
- ✓ View your payment and usage history
- ✓ Track a service appointment

## A safety message from CenterPoint Energy

If you smell natural gas, leave immediately. Call our Gas Leak Hotline at 800-296-9815. Do not use or store flammable products such as gasoline in the same room or area near the water heater or any other gas appliance.

Si percibes un olor a gas natural, sal inmediatamente. Llama a nuestra línea telefónica para fugas de gas a uno de los números de teléfono que aparecen arriba. No use ni almacene productos inflamables tales como gasolina en la misma habitación o en áreas cercanas a un calentador de agua u otro tipo de aparato a gas.

### How to read your meter

The following is an example of how to read a typical meter index.

Look at the four dials with their curved arrows. Read from right to left as follows:

1. Read the "thousand-foot" dial as 7, the last number that the pointer passed. Note that the curved arrow on the dial shows a clockwise movement of the pointer.
2. Read the next dial, the "100-thousand" dial. The curved arrow on the dial above shows a

counterclockwise direction. The pointer is near the 9, but to be sure whether to read it as that number or the lower number 8, the previously mentioned "same or lower number rule" must be applied. Since the pointer in the "thousand-foot" dial to the right is nearer the 8 and the pointer has not reached the 0, the "100-thousand" dial should be read as 8.

3. Read the "100-thousand" dial, it seems to point to 2. Double-check by using the rule above. Since the pointer of the "10-thousand" dial is between 8 and 9, take the lower reading number, 1, for the "100-thousand" dial.

4. Read the left-most dial, the "million-foot" dial. The pointer is near the 6. Using the "same or lower number rule", we find the pointer on the dial to the right is between 1 and 2, so we read the "million-foot" dial exactly as the number it is on or near, 6.

The entire meter reading is 6187.

## A safety message from CenterPoint Energy

If you smell natural gas, leave immediately. Call our Gas Leak Hotline at 800-296-9815. Do not use or store flammable products such as gasoline in the same room or area near the water heater or any other gas appliance.

Si percibes un olor a gas natural, sal inmediatamente. Llama a nuestra línea telefónica para fugas de gas a uno de los números de teléfono que aparecen arriba. No use ni almacene productos inflamables tales como gasolina en la misma habitación o en áreas cercanas a un calentador de agua u otro tipo de aparato a gas.

### How to read your meter

The following is an example of how to read a typical meter index.

Look at the four dials with their curved arrows. Read from right to left as follows:

1. Read the "thousand-foot" dial as 7, the last number that the pointer passed. Note that the curved arrow on the dial shows a clockwise movement of the pointer.
2. Read the next dial, the "100-thousand" dial. The curved arrow on the dial above shows a

counterclockwise direction. The pointer is near the 9, but to be sure whether to read it as that number or the lower number 8, the previously mentioned "same or lower number rule" must be applied. Since the pointer in the "thousand-foot" dial to the right is nearer the 8 and the pointer has not reached the 0, the "100-thousand" dial should be read as 8.

3. Read the "100-thousand" dial, it seems to point to 2. Double-check by using the rule above. Since the pointer of the "10-thousand" dial is between 8 and 9, take the lower reading number, 1, for the "100-thousand" dial.

4. Read the left-most dial, the "million-foot" dial. The pointer is near the 6. Using the "same or lower number rule", we find the pointer on the dial to the right is between 1 and 2, so we read the "million-foot" dial exactly as the number it is on or near, 6.

The entire meter reading is 6187.
