**AMOUNT DUE**

**\$ 35.78**

**DEFINITIONS**

**CCF** 1 CCF = 100 cubic feet of gas. This is how we measure your monthly usage.

**Customer charge and base amount.** Covers fixed costs for reading meters, issuing bills, maintaining facilities and gas lines, postage, etc. These costs occur even if you do not use gas during a billing period.

**Gas Cost Adjustment (GCA)** is the cost CenterPoint Energy pays for the gas it delivers to its customers.

**Storage inventory charge** allows the Company the opportunity to recover the regulated carrying cost of its investment in storage.

**Reimbursement of local franchise fee** is a fee paid to the city for the company's use of right-of-way in streets and alleys.

**Reimbursement of state gross receipts tax** is a tax imposed by the State of Texas on each utility company located in an incorporated city having a population of more than 1,000.

*For a more detailed description of each of the terms used on your bill, please visit [CenterPointEnergy.com/definitions](http://CenterPointEnergy.com/definitions) or call Customer Support at 800-427-7142.*

**Current gas charges**

**DYI: Weatherization 101**

Adding insulation is a cost-effective way to reduce your home's heating and cooling bills.

In the winter, heat flows from heated living spaces to unheated attics, basements and through ceilings, walls and floors. During cooling season, heat flows from the outdoors to the interior. Proper insulation provides an effective resistance to the flow of heat.

For tips, tools and advice, visit **Energy.Gov/EnergySaver**.

174421\_HOU

**Weathering a spring storm**

Your reliable natural gas service is rarely affected by storms. But if your home gets damaged, follow these safety steps:

- Do not turn off natural gas at the meter. Meters maintain proper line pressure and prevent water from entering pipes if flooding occurs.
- To cut off natural gas service, turn gas off at each appliance.

If you smell natural gas:

- Leave immediately **on foot**. Cars, light switches and phones (including mobile phones) could cause a spark.
- When at a safe location, call 911 and CenterPoint to report.

174419

*We ♥ Our Volunteers*

**Those who can, do.  
Those who can do more,  
volunteer.** ~ *Author Unknown*

Our employees and retirees together with families and friends spent 237,500 hours – valued at over \$5.6 million\* – in volunteer service during 2016.

Whether it's reading to children, walking to raise money for charities, taking the handicapped fishing or donating warm clothes to those in need, we seek out opportunities to engage and give back to the communities we serve.

**Celebrating National Volunteer Month  
April 2017**

\*Independent Sector

174423

**Investing  
to make  
your  
service  
even  
better...**

You depend on clean, efficient natural gas to warm your home, dry your clothes and make that gourmet kitchen, well, gourmet. And since natural gas systems are underground, outages are rare.

That's why we plan to invest **\$2.7 billion** in capital over the next five years to further enhance safety and reliability and expand for growth. These things take investment and the dedication of thousands of employees to bring you the service you need for your home or business.

**CenterPointEnergy.com/GasInvestments**

174463\_CNP

**A safety message from CenterPoint Energy**

**If you smell natural gas, leave immediately. Call our Gas Leak Hotline at 800-296-9815.** Do not use or store flammable products such as gasoline in the same room or area near the water heater or any other gas appliance.

**Si percibes un olor a gas natural, sal inmediatamente. Llame a nuestra línea telefónica para fugas de gas a uno de los números de teléfono que aparecen arriba.** No use ni almacene productos inflamables tales como gasolina en la misma habitación o en áreas cercanas a un calentador de agua u otro tipo de aparato a gas.

**How to read your meter**

The following is an example of how to read a typical meter index.

Look at the four dials with their curved arrows. Read from right to left as follows:

1. Read the "thousand-foot" dial as 7, the last number that the pointer passed. Note that the curved arrow on the dial shows a clockwise movement of the pointer.
2. Read the next dial, the "10-thousand" dial. The curved arrow on the dial above shows a

counterclockwise direction. The pointer is near the 9, but to be sure whether to read it as that number or the lower number 8, the previously mentioned "same or lower number rule" must be applied. Since the pointer in the "thousand-foot" dial to the right is nearer the 8 and the pointer has not reached the 0, the "10-thousand" dial should be read as 8.

3. Read the "100-thousand" dial, it seems to point to 2. Double-check by using the rule above. Since the pointer of the "10 thousand" dial is between 8 and 9, take the lower reading number, 1, for the "100-thousand" dial.

4. Read the left-most dial, the "million-foot" dial. The pointer is near the 6. Using the "same or lower number rule", we find the pointer on the dial to the right is between 1 and 2, so we read the "million-foot" dial exactly as the number it is on or near, 6.

The entire meter reading is 6187.
